

Keeping the promise: KVG team.

This year on 14th November 2019, we celebrated “EuVac award ceremony” in our college to felicitate the parents for getting their children graduated timely with primary vaccination before first birth day and booster before 2nd birth day. On 14th It was decided to felicitate the parents throughout the year on the day of vaccination with DPT & OPV 1st booster and MR 2nd dose. This is adding jubilation both to the service provider and the beneficiaries though it incurs a little extra to the management. Vaccination service is free as the essential vaccines of National Immunization Schedule is supplied free on a regular basis by the district health and family welfare services and administered free.

Dr Geetha Doppa, Professor, Department of OBG, felicitating the parents in the vaccination clinic located adjacent to her department.

Dr Holla, Professor, Department of community Medicine, felicitating the parents. Father coming with baby and the mother is conspicuous.

Felicitated by Staff Nurse, Intern and Pediatric Post Graduate.

Now this is the talk in Sullia.
